HEALTH  NETWORK

A NOTE FROM *Karolyn*

For 34 years LifeChoices has remained steadfast as we bring **hope and healing** to our community through **compassionate and comprehensive education and medical services**. We have seen countless lives changed, generations of families impacted, and a community empowered for LIFE. We are pro-love, pro-family, and pro-abundant life. Thank you for coming alongside us in this important work. We hope you enjoy this report of the outcomes made possible by your generous partnership!

CORE *values*

Empowerment: We believe that men and women should be empowered to make informed decisions about their pregnancy.

Education: We believe youth are capable of making healthy choices and that through education we can help them avoid sexual health crises.

Safety: We believe an individual facing an unwanted pregnancy should have a safe place that will not profit from the choices made.

Access: We believe individuals facing a sexual health crisis should have access to affordable, comprehensive, confidential and compassionate care.

Non-Judgmental: We believe our clients are strong and capable of making their own choices and that we are not here to judge their decisions.

Purpose: We believe there is a divine purpose for every child that is conceived and that every child is a wanted child.

Non-Critical: We believe no one should feel pressured when making a choice about their pregnancy.
